

lose yourself on  
our crystal waters...

find yourself in  
our historical lands....

Discover the places that gave life to Greek mythology, like Ithaca – the homeplace of Odysseus. Odysseus' story is the perfect reminder that in travel, it's not so much about the destination as it is the journey, and since the islands only became part of Greece in 1864, our 7-day journey will be rich in Venetian history too.

Mornings invite you to sail, swim and explore on a 3-4 hour guided excursion on islands known for their wonderful beaches and emerald waters. Early afternoons will see you enchanted on a 2-3 hour guided hike on islands boasting unique architecture and lush green environments whilst late afternoons will be spent relaxing on the boat or enjoying the entertainment at the quaint ports.

After the day is done and it's time to rest, bed time will find you sleeping comfortably aboard our catamaran in the middle of beautiful, organized and protected port.

*Hike and Sail*

# Hike & Sail Ionian Tour

## Travel in Time and Serenity

Our Hike & Sail Ionian Tour starts on the emerald island of Lefkada. The tour starts with sightseeing and swimming at the famous island of Scorpios (also known as the island of Onassis). Then we moor in Meganisi, where we meet our friendly crew who will give us all the information we need as we set off for day 1 of our exciting adventure – Hike & Sail Ionian Tour.

After breakfast the next day, we'll head for the Ionian Sea with a visit to the historic Cave of Papaninikolis, enroute. Here, we'll have plenty of time to swim and later hike to Homeric Ithaca in the beloved village of Kioni.

Days 3 and 4 will find us in the North Western part of Kefalonia - Assos and the quaint Fiskardo village, both unspoiled and truly authentic. We'll visit two of most famous and cosmopolitan ports of the island, enjoy lovely beaches, explore the magnificent castle and hike two of the best known footpaths on the Ionian Islands.

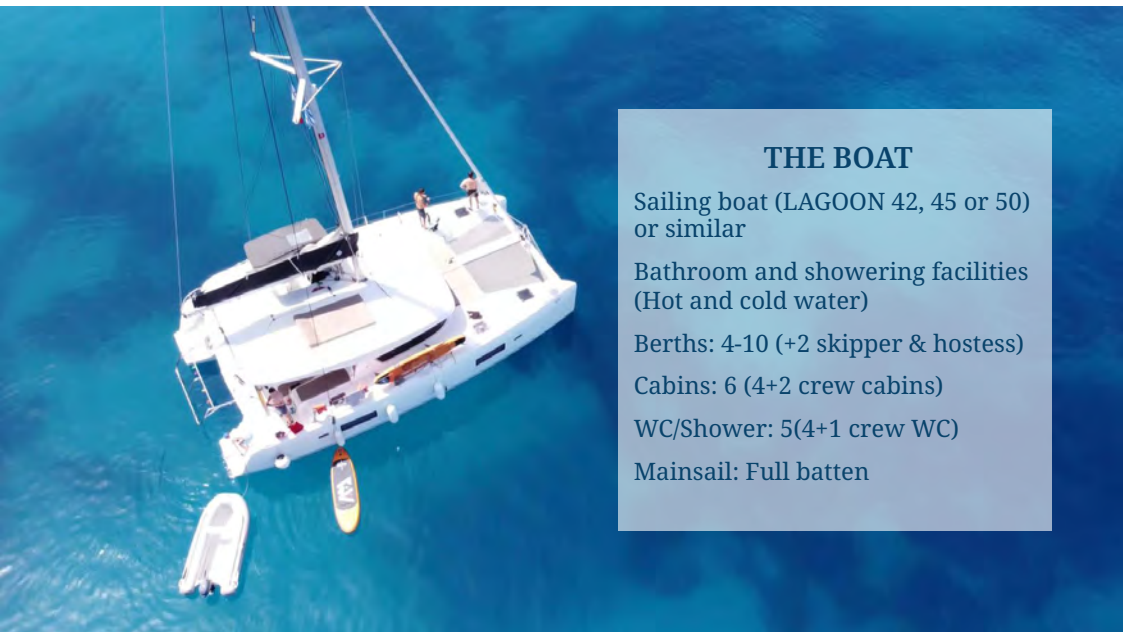

Then our journey continues on to the capital of Ithaca for day 5, to walk and discover the colorful and laid-back Vathi, famous for its lively pubs and taverns.

Day 6 is on the untouched by tourism island of Kalamos where you get your cameras ready for a gentle, scenic walk from Episkopi to the main port.

The final anchorage and day 7 of our voyage, is the vibrant capital and port town of Lefkada where we'll have the opportunity to explore the historic town, pick up some momentos on bicycle or on foot, before we say our good-byes with a complimentary, relaxing massage to send us off on our way.

The schedule of stops may change due to weather
